Corrections/Updates

CARIBBEAN NETHERLANDS, V69(4), page 247

Update: In listing the 24 stamps for the date of 2018, June 19, I missed listing one of the stamps. It is the Brown Booby, *Sula leucogaster*, in family of Sulidae. It should have followed the Osprey.

DJIBOUTI, V69(2), page 110

Update: Scott has assigned numbers to the following issues.

Kingfishers, (Set/4=1880a-d) (SS/1=1890)

Raptor, (Set/4-1881a-d) (SS/1-1891)

Water Birds, (Set/4=1882a-d) (SS/1=1892)

The Antarctic, (Set/4=1885b,d) (SS/1=1895)

GUINEA-BISSAU, V61(1), page 42

Update: A sheet of six stamps + three labels issued 10/25/05 and a SS, still not assigned Scott numbers. The six stamps on the sheet were not previously identified as a Besra, *Accipiter virgatus*, and the stamp on the SS is a Crested Goshawk, *Accipiter trivirgatus*. Both are in the family of Accipitridae

TOGO, V62(1), page 33

Update: Add a SS, no Sc# to the issue for the theme of "Air Pollution and Birds" issue of 2/15/2011.

The bird on the stamp, a 3000f value, is a Spanish Eagle, *Aquila adalberti*, family of Accipitridae: I missed it at the time of listing when I first signed on as author of Ornithology and am trying to catch-up on all the older issues previously listed after the prior author resigned.

FINLAND (Åland) 2019

A set of four “frama” S.A. stamps, featuring four different woodpecker species, each with a 1,60€ value, machine printed in 2019. Martin Frankevicz, New Issues Editor at Scott Publishing, informed me that these stamps will not be issued a Scott number as they do not list “frama” stamps in their stamp catalog. This is the first time I’ve ever received “frama” machine issued stamps, but will list them here.

Color-omitted Error on U.S. Coral Reef Stamps

In the February 22 issue of *Linn's Stamp News*, Charles Snee reported on the discovery of a color-missing error in the coil postcard stamps with the Coral Reef designs (Scott #5367-70). A dealer in Michigan, David Testa special ordered two rolls of 100 coil stamps from his post office. He separated them into coil-number strips of 5 without noticing anything. Later, going through them, he noticed that the lettering "Postcard" was missing. On closer examination, the plate number for one of the colors was also missing. The missing color, according to *Linn's*, is Pantone Matching System 2234C Aqua. Testa submitted a strip of 5 to *Linn's* and they verified the missing color error in consultation with the editors of the *Scott Catalogue*. There will be an entry in the *Scott Catalogue* for the error. Testa used some of the stamps to mail orders to his customers, but still has 91 of them on hand.
