GUINEA

The following eight sets of bird issues, and two souvenir sheets, have been in my inventory for about six years. To date, none of them have been listed by either Stanley Gibbons nor Scott Publishing Company. They may be invalid postally or they are not aware that the sets exist as a reason that they have not yet been assigned numbers. If they ever get listed, I will update BP with assigned numbers.

Three stamps were issued with three different values for animals in the Central Zoo. Only one of the three is stamps has a bird.

3851 60ch Red-crowned Crane, *Grus japonensis*

Scott Publishing Company has assigned numbers to stamps issued by the Democratic Republic Of Korea through the year 2000. The listings appeared in the new 2008 catalog. These following sets were previously listed in the Journal but with Stanley Gibbons numbers. Going backward, starting with the year 2000, I have listed below the BP volume and page number and the issue date and the NEW Scott number in the same order as the stamps were listed for that issue for each value listed. If you have been a member for some years and still have the prior copies of the BP, you may want to update the issue with the Scott numbers.
