I have a stock book in which I have accumulated a large number of wildlife stamps taken from sets or souvenir sheets which had one or two butterflies that I needed. There are birds, animals and insects. If any member has single stamps on their ‘want list’ that are from sets or sheets, let me have the country and Scott number(s) and I will see if I have the stamps. I would sell them at a good percentage off Scott. If I do not get any requests, maybe I will list what I have and members can check to see if there is anything they need.
