If you wish a 60-page update to ATA Handbook #150, *Insects on Stamps of the World*, Vol. 3, covering 2003-2009, e-mail me at aa2f@ar1.net. You will get it by return e-mail. This is about 60 pages and 600kb in size and is only a list by country of issue, formatted as above and not by taxonomic categories. If your e-mail program can't handle this large a file, I can send it in smaller pieces. Don Wright
