

NATIONAL TOPICAL STAMP SHOW 2010 AND THE EXHIBITS.

This was to be the last year that I acted as Exhibits Chairman for the show and the exhibits were very slow coming in after the prospectus and entry form were announced as being available. As the deadline approached for submitting exhibits, we did not have enough to satisfy the APS requirement of 125 frames in competition at all WSP shows. However, a few stalwart ATA members rallied round and at the very last minute, we managed to mount 130 frames – a very close thing!

There were a number of exhibits with a theme related to Biology and the Unit Award this year was a certificate for a one year membership in the Unit. There were also a number of other awards and these are detailed at the end of the exhibit listing.

<i>The Donkey in Man’s World</i> by Robert J. Mather	Gold
<i>Coconuts</i> by Phillip J. Stager	Gold
<i>“Microcosmos”</i> : <i>The World of Insects</i> by Alan J. Hanks	Gold

<i>Pineapples</i> by Phillip J. Stager (single frame)	Gold
<i>Black Beauty & Friends</i> by Austin John Hines (youth)	Silver
