

ICHTHYOLOGY

Editor

Kris P. Lindstrom, LM77

(Editor's Note: The Ichthyology editor is in the process of updating his listings. In order to include the new data and because it has been more than year since the last update, he provided a draft for this edition. I have made extensive modifications in formatting, so if there are any erroneous entries, I will take full responsibility and we will ensure any corrections run in a future edition of the journal.)
