

**SPIDERS ON STAMPS**  
**Dr. Beatrice R. Vogel, BU1809**

*Editor's note.* Dr. Vogel is a retired arachnologist and former research associate at the Denver Museum of Nature and Science. She is the author of many scholarly publications with particular concentration on the genus *Pardosa* (wolf spiders). She is the founder and first president of the American Arachnological Society. The spider *Oreoneta vogelae* Saaristo & Marusik, found in the Russian *Sokhondinsky* Biosphere Reserve is named in her honor. Her topical philatelic interest is, naturally, spiders on stamps. I met Bea at the PIPEX 2012 show in Portland and she provided this listing at my asking. It lists only spiders and not other arachnids.
