A HANDY CHECKLIST OF SCOTT CATALOGUE PREFIXES

Clarence Chandler (Chan) Wright

[Ed. note: Chan Wright (1920–2002), of Eugene, Oregon, was also the major compiler of Linn's Stamp Identifier, an original project of the Greater Eugene Stamp Society. The original of this article was published in The Federated Philatelist, Number 156, April 1998, the journal of the Northwest Federation of Stamp Clubs. Because most of our readers use this catalogue, I thought this listing would be a useful reference. I have revised and updated it to include additional entries (including the "R" series). Since Wright assembled this list, Scott has added many new prefixes and has expanded the listing in the catalogue Introduction section. This list does not include all the many suffix letters that also exist.]

The *Scott Catalogues* list stamps and related items under each country by functional classes. In the Introduction to the 1998 Vol. 1, Scott lists 39 classes in addition to the "Regular" issues, and assigns a prefix for each. That is a lot of classes, right? Yes, but these are only the classes used by more than one country.

Over the past several years I have developed the following listing, which undoubtedly is incomplete. (Please note that Scott also uses letter prefixes followed by numbers to identify its stamp illustrations, and these prefixes may, or may not, agree with those used for the class of stamps.) I wonder whether Scott has a complete list. Note that the only "R" series included is the "RA" Postal Tax Series. There are about 30 other prefixes in the "R" Revenue Series.

A small, but interesting, collection could be made by trying to get at least one stamp in each of these classes.
