

MAMMALS

A couple of comments are required before this editions listing. Firstly, I do not usually include cartoon representations in my listings but have made an exception this time to include the Singapore Night Animals set. The pig and cat denominations are sufficiently distinctive to be recognizable as the species intended, but I have left the tarsier value unidentified as it could represent anyone of the family. Secondly, Scott have listed a number of Congo Democratic Republic (formerly Zaire) issues and I will mention an error on one of the sheetlets. Both the Feline and Canine sheet lets of 12 have beneath the actual stamps brief descriptions of each species. Stamp #15181 of the Canidae sheet depicts a red fox, but the description below is of the arctic fox. This species is in fact depicted on the souvenir sheet.
