

# The World of Lepidoptera on Stamps

Raymond J. Sullivan

Raymond J. Sullivan has produced a 30 page booklet based on his exhibit at NTSS 2005 and the cover is reproduced above. There are full color illustrations of various stamp issues with some commentary on various aspects of the science of Lepidoptera. I found the book very enjoyable and copies are available for US\$5.00 plus postage from Raymond J. Sullivan, 125 N. 123<sup>rd</sup> Street, Wauwatosa, WI 53226.
