

MAMMALIA

Editor

Michael Prince, LM 868

Firstly, I must correct an omission from my listing in Vol.58(2). In my introduction I explained my reason for listing the dolphin depicted on Costa Rica #619b as *Sotalia fluviatilis*, rather than *Sotalia guianensis* as given on the stamp. In the list of stamps however, I omitted to note that *S. fluviatilis* was a NEW species on stamps.

There is just one item to mention concerning the following selection. Of the 3 new species listed, I have only noted the North Korea example of the Malagasy Giant Rat as NEW on stamps, because the Jersey example was issued almost 2 years later.
